

Lightweight
modular panels for
high-grade vault
room construction

Centurion Vault

BURGLARY-RESISTANT PROTECTION

Key Features

- Centurion vaults are available in grades V–XII. All grades have been approved to provide resistance against explosives and grades IX–XII offer additional protection against diamond core drill bits (optional extras).
- Every grade of Centurion vault has been independently tested by ECB-S and awarded the EN 1143-1 certification for burglary resistance.
- The vault rooms are constructed using lightweight modular panels, making assembly, disassembly and expansion of a room both quick and easy.
- Reduced wall thickness maximises use of the available space.
- An innovative, VdS-approved ventilation system provides optimum climate control (optional extra).
- Every standard width panel has 2x21.7mm diameter holes positioned 100mm from the top and bottom which can be used as empty tubes
- The exterior of the vault can be finished with plaster or clad with wood or metal panels (optional extra).

Product Specifications

Vault Panel	Wall Panel Thickness (mm)	Net Weight (kg/m ²)	Max span	Max wgt of vault panel (kg) (standard panel width 600mm)
			100 kp/m ²	
Grade V	85	285	3350	573
Grade VI	85	285	3350	573
Grade VII	85	285	3350	573
Grade V	100	340	4000	816
Grade VI	100	340	4000	816
Grade VII	100	340	4000	816
Grade VIII	100	340	4000	816
Grade IX	125	420	5250	1323
Grade IX CD	125	420	5250	1323
Grade X	150	495	5200	1544
Grade X CD	150	495	5200	1544
Grade XI	220	695	5060	2110
Grade XI CD	220	695	5060	2110
Grade XII	280	875	4960	2018*
Grade XII CD	280	875	4960	2018*

CD denotes protection against diamond core drill bits.

* 465mm panel width.

Testing

Every grade of Centurion vault room panel has been independently tested by ECB•S and certified in accordance with EN 1143-1, the European standard for burglary protection.

This standard covers attacks from a variety of tools, including crowbars, high-powered disc cutters and oxyacetylene torches.
