

SAFESCAN 35

COUNTERFEIT DETECTION PEN

THREEFOLD COUNTERFEIT DETECTION FOR ALL CURRENCIES

This detector scans banknotes in three different ways: UV, magnetic characteristics and security thread; while being extremely compact for portable usage.

This makes this detector the ideal solution for cab drivers, proprietors of mobile shops, couriers and professionals that are out on the road a lot, such as branch managers. This device works on (replaceable) batteries (included). The Safescan 35 is extremely keenly priced!

- Threefold verification (UV, magnetic characteristics and security thread) for reliable results
- Extremely lightweight and compact
- Quick and easy to use
- Including neck strap
- Including batteries (4 x LR44)

Product range :	False money detection
