ForceGuard is a security cabinet suitable for the storage of a range of valuable bulk items

ForceGuard

BURGLARY-RESISTANT PROTECTION

Key Features

- Available in four sizes, from 200 to 800 litres, with double doors on models 2–4.

- Single-wall body and door constructed with 3mm solid steel. Doors have a total thickness of 52mm and open to 180°.

- Secured by three-way boltwork, locking at the top, bottom and side of the door. All bolts are chrome-plated and 20mm in diameter.

- Doors also fitted with relocking device to give additional protection against attempted forced entry.

- Key lock (Class A), combination lock (Class B) or electronic lock (Class B) fitted as standard. All locks approved in accordance with the European EN 1300 standard.

- All models equipped with removable shelves designed to accommodate hanging files.

- Anchor points in the base allow the cabinet to be fixed to the floor.

- All cabinets have a light-grey, powder-coated finish, suitable for any office space (RAL 7035).

CHSL T4	1900	1220	430	1754	1200	375	238	790	2	5	6	7.20

Lock Options

Electronic Lock

ForceGuard can be fitted with a double-bitted key lock, a 3-wheel combination lock or a high-security electronic lock as the primary locking option.
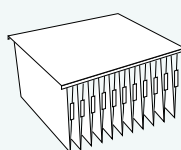

All standard locks have been certified by leading standards agency, ECB•S (European Certification Board•Security Systems), in accordance with the European norm, EN 1300. The key lock is approved Class A and the combination and electronic lock have a Class B certification.

The electronic lock accommodates 1 master code, 1 supervisor code and up to 7 user codes. It features a time delay function of up to 99 minutes, dual control and optional duress alarm.
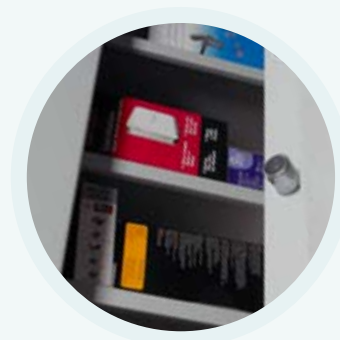

A secondary lock can be fitted on request.

Internal Fittings

Shelf with provision for hanging files

All cabinets can be fitted with frames for hanging files. A rail fixed to the roof of the cabinet allows the attachment of an extra file frame and means the largest model can accommodate 7.2 metres of hanging files.
