Deadbolt 2S

Metal Grey

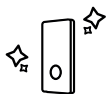

The Smart Deadbolt 2S Metal Grey

The world's slimmest smart deadbolt.

This is style and substance.

The igloohome Deadbolt 2S Metal Grey features a fresh look to the slimmest deadbolt in the world. Keeping the sleek and minimalistic exterior of its predecessor, it comes with more than enough features to rival the big boys. This is the epitome of style and substance.

Up your style factor

The igloohome Smart Deadbolt 2S Metal Grey has a universal aesthetic that fits well with most decor. Measuring at 11mm thickness for front panel, its clean and sleek design makes it a stylish addition to any home.

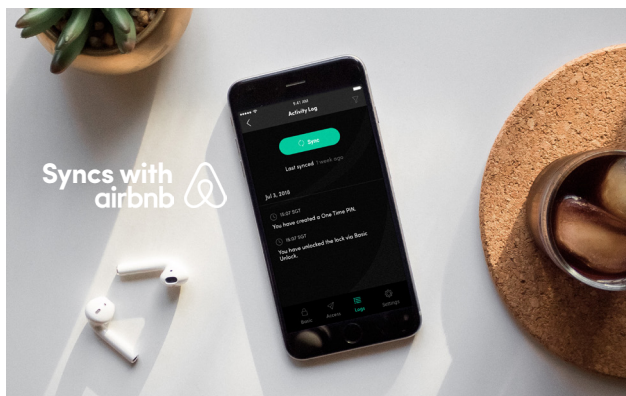

Security is never compromised

Customise the validity of your access modes. Create time-sensitive PIN codes and Bluetooth keys and send it to your guests. Be assured that your property remains secure after their stay.

Access at your fingertips

All igloohome devices work with the igloohome mobile app. You can manage access to your property anytime, anywhere.

Greater peace of mind

Unlike conventional locks, the igloohome app allows you to track the dates and times at which visitors enter your home. Activity logs gives you greater visibility for a greater peace of mind.

**Bluetooth key logs are updated in real time, and PIN code logs are updated when the master owner uses a Bluetooth key.*

Features

Keypad Security Lockout

Keypad is disabled after several incorrect PIN code attempts to ensure your property is always secure.

Passage Mode

Keep your door unlocked for movers, friends or more without the hassle. Turn auto relock off via Bluetooth if need be for greater convenience.

Auto Relock

There's no wondering if you've locked your door behind you. Auto relock gives you convenience with a peace of mind.

Features

Masking Security Code

Your PIN code will always be confidential. Throw off onlookers by entering random digits before your actual passcode.

Quick Unlock

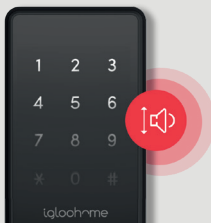

Easy access every time. Tap your phone on the keypad for faster and simpler unlocking of your door.

*Function must be turned on via app. App must be logged into & running in the background.

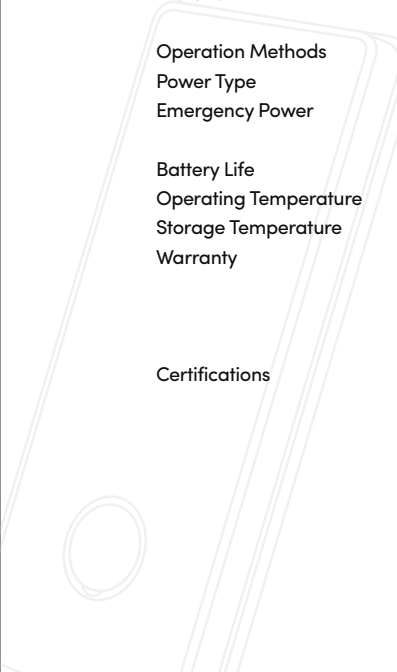

Volume Control

Adjust the volume of the keypad to your needs.
