KEYGUARD DIGITAL XL

FAQs

Is it Police Preferred?

Yes. Keyguard Digital XL has been given approval from Secured by Design. This is the official Police Scheme for recognising security products. Visit this link for further details:

<http://www.securedbydesign.com/members/burton-safes-limited/?prod=9636>

Is Keyguard Digital XL suitable for outdoor use?

Yes, it's been specifically designed for outdoor use.

Is it easy to install and change codes?

Yes, the permanent lightweight weather protector cover also acts as a fitting temple, which is complimented by our simple, image based user instructions that are included with every product.

Has it been tested?

Yes, it's been independently tested and certified to LPS I 175 (Issue 7) SRI and Sold Secure Bronze.

What is LPS I 175?

The LPS I 175 security ratings are set by the Loss Prevention Certification Board (LPCB), which works closely with the police, Government, insurers, risk consultants and architects to develop its standards. In their test standards they have 5 levels, SRI - SR5 each carrying a set tool list and time for testing the product. The LPCB's standards and approvals for security products are recognised across the globe. Visit this link to view all our LPS rated products:

<http://www.redbooklive.com/search/companylist.jsp?companyid=1682&searchgrouptypeid=0&id=184>

What is Sold Secure Bronze?

Sold Secure is owned and run by the Master Locksmiths Association. They test and approve security products including door locks, safes, cabinets, padlocks, chain & vehicle locks. In their standards they have 3 pass levels, Gold, Silver & Bronze. Their certification is widely recognised by the UK Insurance Industry and the UK Police. Visit this link for further details:

<http://www.soldsecure.com/search///keyguard-digital-xl.html>

Why have Sold Secure Bronze and LPS I 175 SRI?

The dual accreditation stands testament to the confidence Burton Safes have that this product is truly the industry leader and removes any ambiguity on the products suitability for use by Councils, Care providers and Commissioners.

Is it Insurance Approved?

Yes, it is specified by some major insurers for example Aviva, who stipulate use of an LPS I 175 certified product for external key storage which the KG XL is, a user should always check with the relevant underwriter for full clarity.

Who are Burton Safes?

We are specialists in the manufacture, distribution, installation and servicing of physical security products.

We currently supply Europe's highest security safe and Europe's highest security vault door and vault room. We are active members of several trade associations Eurosafe UK, Master Locksmiths Association, ESSA, & Secured by Design.

We currently have **over 100 Police Preferred Specification products** under the Secured by Design scheme. Our experience in the provision of high security products is beyond question in this market.
